

Walmart Supermarket Sales Performance Dashboard

This Dashboard reveals a strong overall performance, driven primarily by Food and beverages and Sports and travel, which lead both total sales and gross income. Sales are stable across all three branches (A, B, C), with Branch C slightly ahead.

- Payment Dominance:** Transactions are highly digitized, with Ewallet and Credit Card making up nearly 70% of payments.
- Customer Loyalty:** The customer base is almost evenly split between Members and Normal customers.
- Seasonal Dip:** All cities experience a noticeable sales dip in February, while Mandalay shows the strongest growth recovery into March.
- Low Performer:** Health and beauty is the lowest-selling product line and may require targeted promotions.
